

Outdoor Kiosk Series

Large-format outdoor dual totem

Customisable / Outdoor

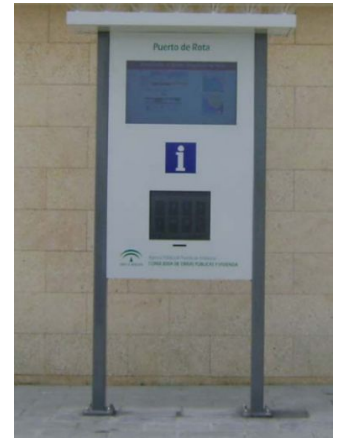

ACCESSIBLE AND ROBUST INFORMATION. The e1000 is designed for any environment, even in the most extreme weather conditions. Its painted stainless steel structure makes it a solid terminal, even near the sea or in the mountains.

The e1000 has a roof that protects the user from the sun and rain, as well as incorporating two high luminosity LED halogens to facilitate its use in the absence of light, and can also integrate a solar panel for total autonomy.

Its structure can house several screens of different sizes up to 40" horizontally or 55" vertically and even an LCD display. It is also designed to be accessible to any user, even those with reduced mobility, as the information is easily visible and legible from a wheelchair.

It is available in any colour from the RAL range and can be adapted to the customer's brand image by means of cut vinyl or digital image.

PRODUCT PROFILE

Manufacturer: Grupo EOS Ibérica.
Origin: Manufactured and assembled in Spain.

Production:
 > 5 weeks (estimated time).

Material:
 > 1.5 / 5 mm carbon steel sheet.

Flanges/Interior fastenings:
 > Galvanised sheet metal.

Finish:
 > High resistance epoxy paint.

Watertightness and sealing:
 > IP65 (optional).

Dimensions:
 1956x565x137.5 mm.

Structural weight:
 90Kg.

Use:
 > Indoor.
 > Outdoor.

STANDARD SPECIFICATIONS

Display:
 > Industrial LCD 24/7. High luminance (*)

Screen resolution:
 > 32", 16:9 (horizontal).

Number of screens:
 > 1.
