

Embedded Serie

Multifunctional trolley

Customizable / Indoor

MOBILE TERMINAL. Small in size, it allows tests or studies to be carried out, adapting to the needs of each person. It is an ideal support for clinical practitioners.

It is visually pleasing and has four wheels, which makes it easy to transport for any use. Thanks to its size, it can be used both standing and seated.

The eCart has a screen with a resolution ranging from 19" to 22". It allows different viewing angles vertically or horizontally, providing ergonomics to this terminal.

Designed for the healthcare sector, it is designed to add any peripheral such as laser, scanner, transducer, etc. It can also be customised in any colour, cut vinyl or digital image to adapt it to the client's corporate identity.
