

AUTONOMOUS PAYMENT OF CASH, IN A SMALL SIZE. It can be embedded in furniture or wall or used as a tabletop.

With the optimisation of customer waiting time and employee processes in mind. This POS is designed for automated cash collection in small spaces. With no staff intervention in the management of banknotes and coins, it is a hygienic and cost-effective solution that avoids losses, misplacements, change errors or counterfeit banknotes.

For in-store use, it is also equipped with an instant, centralised cash locking system. Can be operated from any remote location. It can be customised in any RAL colour and/or with cut vinyl, digital image and fretwork to adapt it to the customer's corporate image.
