

CONTROL IN A SMALL SPACE. The eControl allows us to integrate a remote system in a small space, ideal for facilitating your communication processes, access control to swimming pools, personnel identification, video door entry systems...

This terminal is designed to be placed outdoors, with IP65 watertightness, able to withstand strong weather conditions. The back is screwed and can carry different elements such as fingerprint reader or DNle, barcode/QR, RFID among others. It has a high luminous industrial LCD screen.

The front can be customised in any colour from the RAL range and/or with cut vinyl, digital image and fretwork to adapt it to the customer's corporate image.
