

TERMINAL WITH A HIGH VISUAL IMPACT. This indoor totem allows the integration of a holographic projector. This innovation, together with the different formats of 43", 49" and 55" interactive screens in vertical format, makes this kiosk a powerful communication and advertising tool.

The Hologram eDirectory can be easily transported thanks to its 6 wheels. In addition to integrating various peripherals such as DNIe reader, USB or webcam.

The holographic projector allows companies to stand out at events, trade shows or other commercial spaces as it can project 3D products and images, animated graphics or even create a holographic avatar of a speaker. Available in any colour from the RAL range.
