

AUTONOMOUS AND SHARED MANAGEMENT.

This POS has a wide versatility of use. It is designed to be used for autonomous or guided collection at the point of sale. On the other hand, it can be used as a consultation or loyalty system in which the customer can use it in an easy and simple way, saving time and without the intervention of personnel.

It is designed to be fixed to a counter or table. It has a USB output, to add different types of accessories; keyboard, barcode reader...

It can be customised in any RAL colour and/or with cut vinyl, digital image and fretwork to adapt it to the customer's corporate image. In addition, EOS Ibérica helps the customer to configure this POS by selecting the most suitable components: printer, QR code, identification or payment readers...
