

Outdoor Kiosk Serie

Indoor or outdoor interactive information point

Customizable / Indoor - Outdoor

AESTHETICS AND FUNCTIONALITY IN ANY ENVIRONMENT. The design of the eTótem makes it a kiosk suitable both as an indoor PIM and as outdoor street furniture. Its slender shape makes it elegant and highly visible in any space.

It offers many configuration possibilities thanks to its wide variety of interactive display formats, both portrait and landscape, and its combination with static advertising on backlit panels, creating a powerful communication tool.

EOS Ibérica advises its customers on the optimal configuration to adapt the product to their needs when selecting elements such as display, industrial components or readers. In addition, the eTótem is available in any colour from the RAL range and can be adapted to the customer's brand image with vinyl or digital image.
