

360° DISINFECTION OF PEOPLE

This safety and disinfection arch integrates all types of dispensers; gel, gloves and boot swabs. Individual temperature control module with facial recognition.

The eArco is designed for the entrance and exit of public spaces or companies that require extreme security and hygiene. When passing through the arch, people's clothes, hands and feet are disinfected, in addition to knowing their body temperature, so the risk of contagion is reduced to a minimum.

PROFILE PRODUCT

Manufacturer: Grupo EOS Ibérica
Origin: Manufactured and assembled in Spain
Estimated production time: 4 weeks

DESIGN STANDARDS

Protection Rating: > IK07
Sealing Rating: > IP65
Security Grade: > G01

MATERIALS - DIMENSIONS - WEIGHT

Material:
 > Carbon steel sheet, 1,5 / 3 mm
Internal brackets/supports:
 > Galvanized sheet
Dimensions:
 > 2269 x 1212 x 1000 mm
Structure weight:
 > 90 Kg
