A lectern that can integrate a teleprompter screen

TAKE KIOSK

COMFORT IN PRESENTATIONS AND LECTURES. Without turning your head, with direct or remote control of the audiovisual media accompanying the speech.

The eAtril is a stand that can accommodate a 12" or 17" screen. In addition, a cover for the screen is included, in case you do not want to use it. Thus obtaining a stand for writing.

The loading of content is simple, by means of a multi-card/USB reader connected to the PC hidden in its base or to a control table. It offers space for two glasses, space for the presenter and support handles. It can be reused as many times as desired. It can be customised in any RAL colour and/or with cut vinyl, digital image and fretwork to adapt it to the client's corporate image.
