

SELF IN Series

Multifunction ATM with electronic/monetary payment and A4 identification

Indoor Kiosk

UNATTENDED MANAGEMENT AND PAYMENT with double screen. One of the screens can be enabled for use by people with reduced mobility or as a screen for advertising messages.

The main feature of the Citizen eCashbox is the front opening. This facilitates the replacement and maintenance of the peripherals.

The cash dispenser can be anchored from the inside or, if desired, embedded with a frame on the exterior façade of the establishment, so that it can be used 24 hours a day, even when handling cash, ensuring that the cash is guarded inside the premises.
