

DISPOSABLE PERSONAL PROTECTIVE EQUIPMENT DISPENSER

Small-sized information terminal that can integrate several different dispensers and a quick facial temperature detection system or house a gun for manual temperature measurement.

With a slim and pleasing visual aesthetic, it can integrate a hydroalcoholic gel dispenser, as well as disposable gloves and tights. A waste bin can also be added to dispose of them once they have been used.

The eDispenser is designed for access control in companies, hospitals and all types of public services and can be equipped with a screen to provide information on the protocol to be followed to prevent possible contagions.
