

TABLET Series

Enclosing casing for secured wall-mounted tablet use at 45° / 90°

TAKE KIOSK

ANTI-VANDAL TABLET LOCKS. Versatile stand with lock and Kensington cable slot.

The ePad Wall, designed to protect the electronic tablet, is a frame made of ABS, with a front panel and support tube of metal alloy.

The arm length is the minimum necessary for installation, which allows it not to protrude, thus integrating into the aesthetics of the environment.

The ergonomic tilt at 45° or 90° makes this tablet kiosk the most suitable option. It offers easy and fast assembly and installation for both counter and wall. Furthermore, it is available in a wide variety of sizes so you can use practically any tablet model.

PRODUCT PROFILE

Manufacturer: Grupo EOS Ibérica
Origin: Manufactured and assembled in Spain
Estimated production time: Permanent stock (check quantity)

STANDARD SPECIFICATIONS

Screens: Tablet
Format: Vertical / Horizontal
