

SELF IN Series

22" Large-Capacity Terminal for A4 Printer and Scanner

Indoor Kiosk

DON'T LEAVE ANY DEVICE BEHIND. Thanks to the large cavity of this kiosk, it allows the integration of scanner or A4 printer with 2 trays of up to 500 sheets each.

This model is equipped with a 22" display with or without touch interface, which can be combined with a cash payment module, an extended keyboard or, if required, more specific peripherals can be integrated.

The ePrinter has a front access door (bilateral option) and security lock, a second front door for maintenance of the display and top of the terminal and 2 telescopic slides for removal and maintenance of the printer.
