Information and hand cleansing point with hydroalcoholic gel

APPLICATION NON KIOSK

AUTOMATIC GEL DISPENSER WITH DISPLAY.
The eSanitizer allows you to disinfect your hands before touching the screen or entering an establishment.

The touch-free dispenser has a sensor that detects the user's hand and pours the required dose of gel. It can incorporate a 19" touch screen or a thermal camera with facial recognition for fever detection.

It has a front-opening door, allowing easy maintenance of the terminal, such as refilling with hydroalcoholic gel. In the hall, at the reception or at the entrance control. To identify yourself or read the information and security protocols And without taking up space and design: with a depth of only 11 centimetres, the eSanitizer fits into any wall, facilitating access for people and preventing contagion.
