

CONGRESS - Series

Electrified display unit

TAKE KIOSK

ATTRACTIVE AND CONVENIENT PARTICIPATION IN TRADE FAIRS, CONGRESSES AND EXHIBITIONS.

Mobile stands with multi-screen support allow the integration of screens up to 46" and multimedia demonstrations and presentations using PCs and peripherals without taking up additional space.

At the end of the event day, the collection of support materials, such as brochures, or decoration elements, such as the two benches included in this model, is easy and quick, as the eStand has lockable doors to house these elements in its structure.
