

SELF IN - Series

32" multi-function ATM for dispensing identification cards

Indoor Kiosk

CARD READER AND RECORDER. Thanks to its front opening, it allows for easy maintenance and replacement of peripherals, such as paper replacement.

It can include a 32" or 22" screen vertically, or two 19" screens horizontally. Its structure allows the integration of different card dispensers; for workers, members, metro cards... Ticket printer or electronic payment module.

Due to the height of the eXpender, it is possible to incorporate a webcam. This robust kiosk makes it possible to track traceability through a scanner. Self-check-in at hotels or accommodation and provide us with the entry card. Recharge urban transport cards, among other functions. This kiosk has forced ventilation or air conditioning.

PROFILE PRODUCT
