

ACCESSIBLE OUT - Series

Adapted and Accessible Interactive MUPI with Dual Screen

Outdoor Kiosk

ACCESSIBLE AND RESISTANT INFORMATION. Designed to provide accessible information in any environment, even under the most extreme weather conditions. Its painted stainless steel structure makes it a solid terminal, even in coastal or mountain areas.

Conceived for universal accessibility, it allows for accessible and visible interaction for all users, including those with reduced mobility. The screen layout facilitates reading and use from a wheelchair, ensuring an inclusive and ergonomic experience.

Its structure houses a 32" screen at the top and a 19" screen at the bottom.

The e1000 features a roof that protects the user from sun and rain, with the option to incorporate solar panels.

(*) Direct sunlight must not fall directly onto the screen.
