

TPV OUT - Series

Digital Payment Post in Outdoor Spaces such as Petrol Stations

Outdoor Kiosk

SECURE COLLECTION. The robustness of the autopayment totem guarantees the security of collections.

The eAutopago Poste is used to offer a payment, ticketing and/or queue and shift management service in unattended public spaces. These functionalities and the possibility of double-sided use make it a fully self-service solution, ideal for petrol stations, leisure establishments, car parks, etc.

This model can integrate 12" LCD screens and the payment system of the main manufacturers approved by the Spanish Mint, such as Hipercom and Ingenico. It can also incorporate a banknote validator and other accessories such as a barcode reader, ticket printer, self-amplified loudspeakers and any other elements required for the specific project.

*The sun cannot shine directly onto the screen

PROFILE PRODUCT

Manufacturer: Grupo EOS Ibérica
Origin: Manufactured and assembled in Spain
Production: 5 weeks

STANDARD SPECIFICATIONS

Screens: Single screen - 12" 4:3
Format: Horizontal
Protection: 3+3 Anti-vandal Glass

OPTIONAL COMPONENTS

Touch screen:
> Capacitive technology 6 mm
Fanless Industrial PC:
> Atom /Celeron/ i3/ i5/ i7
Operating System:
> Android, Windows or Linux
Multimedia:
> Speakers.
