INDOOR MULTIFUNCTION SMART TERMINAL

USER IN - Series

Lightweight terminal with front access and A4 printer support

Indoor Kiosk

All-in-one. The vertical design of its structure allows the webcam to capture the user's physique and features with greater realism.

This interactive kiosk is characterized by its ability to integrate an A4 **printer and/or scanner**. Furthermore, it can incorporate other peripherals such as readers, a keyboard module, or a POS terminal, and even two wheels to facilitate mobility. It can house a screen of up to 19" in vertical orientation.

This terminal features **front-opening** access, which simplifies maintenance and service tasks. It supports various customization options to align with your corporate branding. It can be customized as a flat surface, with printing on the front panel, or personalized using cut vinyl or digital printing.
