

USER IN SERIES

Dual-column with multi-screen, multi-format configuration and side access

Indoor Kiosk

DOUBLE-SIDED FUNCTIONALITY ADAPTED FOR PEOPLE WITH REDUCED MOBILITY. Kiosk with 2 screens to be used simultaneously by two people.

19" touch screens can be arranged horizontally or vertically. Likewise, one of the screens can be adapted to a different height for people with reduced mobility. The support can include different peripherals such as ticket printer, DNIe reader, RFID / NFC, fingerprint reader, USB among others.

It has a side door which allows easy maintenance of the machine. Customizable with retro cut, cut vinyl or dibond panels printed with digital images.

The eTándem is an economic product since it can share the same component with different peripherals, for example a pc for the 2 screens, which lowers the cost.
