

Outdoor Kiosk Serie

Automatic barrier for access control

Customisable / Outdoor

Automatic vehicle access barrier. It is a complementary device from the eStop series, designed to restrict or permit vehicle access in unattended environments.

Its operation is linked to the prior identification of the vehicle number plate, performed by one of our kiosks from the eStop series, automatically raising once access has been validated. This automatic vehicle barrier offers high **installation flexibility**: it can be mounted on the **left or right** side according to the requirements of the project. It may include **lower LED lighting to signal and guide the access zone**.

It can be customised in any colour from the RAL range and adapted to the client's brand identity using cut vinyl or digital image vinyl.

PRODUCT PROFILE

Manufacturer: Grupo EOS Ibérica.
Origin: Manufactured and assembled in Spain.

Production:
> 4 weeks (estimated lead time).

Material:
> 1,5 / 5 mm carbon steel sheet.

Internal brackets/fixings:
> Galvanised steel sheet.

Finish:
> High-resistance epoxy paint.

Sealing and waterproofing:
IP 65.

IK protection rating:
IK 8.

Dimensions:
> 1030 x 330 x 306mm

Structure weight:
> 43 Kg.

Use:
> Outdoor.

STANDARD SPECIFICATIONS

Motor

Video output:
> HDMI, DVI, SVGA.

Access points:
> 1 rear door.

Electric panel:
> Residual current circuit breaker.
> Circuit breaker.
> Barrier's own mechanism.

Structure Colour:

> RAL:  white 9003.

(*) Direct sunlight must not fall directly on the screen.

OPTIONAL COMPONENTS

Personalisation/Customisation:

- > Cut vinyl/digital image.
- > Airbrushing or multicolour graffiti.
- > Industrial painting in various **RAL Colours**.

OPTIONAL ADAPTATIONS

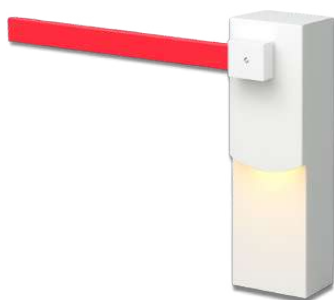

PRODUCT VALUES

- > Robust.
- > Weatherproof for outdoor use.
- > Anti-vandal protection.
- > Accessibility.
- > Speed.
- > Complementary terminal for eStop series technology solutions.
