Robust 32" multifunctional kiosk with front and rear door

Indoor Kiosk

COMPACT DESIGN, GREAT FUNCTIONALITY.

This ergonomically designed interactive kiosk is engineered to deliver optimal performance in confined spaces, without compromising visibility or component integration. Its modular and customisable structure accommodates a vertically oriented 32" LCD/LED screen and supports the integration of a wide variety of peripherals.

Perfect for ticketing or self-service payment solutions, this interactive terminal enables the integration of ticket printers, card payment systems, readers, and dispensers. It features advanced functionalities such as front-loading for jumbo paper rolls, a customisable front panel (straight, bevelled, or wavy), and an optional LED backlit display. The base can be configured as either fixed or mobile, adapting to any installation environment.
