

ACCESIBLES IN Series

Floor-standing digital kiosk, side maintenance

Indoor Kiosk

AUTONOMOUS, ACCESSIBLE DIGITAL KIOSK IN FLOOR-STANDING FORMAT. Designed for high-traffic healthcare environments, it offers great stability and needs no anchoring (recommended where the installation allows; the unit is ready for it).

It features an ergonomic 19" horizontal display and stands out for its robustness and modular capacity: it supports health or ID card readers, QR and QR+RFID readers and a printer for queue tickets and receipts.

It is customised in any RAL colour with cut vinyl or digital print, with the option to back-cut the front and add Braille labels and a NaviLens QR sticker.
